

Esequiel Morales

Frontend Developer

Barcelona, Spain · esequiel.morales@icloud.com · [linkedin.com/in/esequielmdev](https://www.linkedin.com/in/esequielmdev) · <https://banzai05.github.io>

After finishing the bachelor of IT, started my career in one of the biggest companies of Uruguay as a Frontend developer, Using technologies such as HTML, CSS, and JavaScript to make an important graphic impact and add value to the client proposals.

in 2021, I made the decision to emigrate to Spain where I currently reside.

At the moment, I have more than 3 years of experience and learning React.js is one of my short-term objectives.

Work experience

Developer

apr 2022 - oct 2022

Avidan properties, Barcelona, Spain

Worked in the enterprise who manufactured and sell homeopathic products for a large number of customers in Europe, Making use of e-commerce platforms.

- Developed a web-app useful to manage the stages and status of the plantations.
- Managed and created the products shown in the e-commerce.
- Installed and configured modules for PrestaShop.
- Worked with the SEO to enhance the position of the e-commerce in the Google algorithm.

Frontend Developer

apr 2019 - nov 2021

Tata Consultancy Services, Montevideo, Uruguay

Participated in the web team which was dedicated to create impactful and beautiful sites for the customer, in that way we added value to their proposals.

- Updated our own CSS library "Normalize" that standardized the styles between all of the sites.
- Revamped the "Normalize" with components so the team could build designs and pages much faster than before.
- Utilized SiteFactory, a Drupal-based CMS. to create basic landing pages for specific proposals.
- Made custom websites using HTML, CSS, JavaScript, jQuery, and Bootstrap for high-budget proposals.
- Developed a script for Google analytics that automatized getting data from all of our sites, lowering the time of one task that could take up to 8 hours to only a few minutes.
- Introduced our clients to augmented reality through a web app that we developed, making a great impact showing what the team was capable of doing.
- Introduced fellow developers/coworkers to Git/GitHub and standardized a workflow.
- Developed an internal tool that worked as a CMS to build landing pages faster, with a user interface.
